

Dear Parents/Students,

We (e-Yantra) are happy to announce the e-Yantra School **Robotics Competition** (eYSRC 2021). Registrations are open till **August 20th, 2021**. This is exclusively for school students from **Grade 8th - 12th (13-17yrs)**.

E-Yantra has long been asked when it would bring its highly popular Robotics competition from engineering colleges to schools. Following a successful pilot earlier this year here's what the kids had to say - they had great fun and began to relate better to what they were taught at school: https://youtu.be/vyjUjLdG_zA

This time we're going **International!** We believe this is a great way of bringing youngsters together internationally - the world promises to be a better place for it.

The competition brings **Project Based Learning** to school students ONLINE. They learn **Python programming** by developing **Games**. The duration is 10-12 weeks from time of registration to final task. Winners are eligible for exciting **Goodies** and **Cash prizes**.

Registration at: www.eysrc.e-yantra.org.

If you wish to interact with our team to know more about the competition, you can join us in a meeting by filling a short - [Awareness Form](#)

Please find the [attached poster](#) and an [introductory video of eYSRC 2021](#) about the competition. This year's competition **theme** is - [Game Inventor](#). We'll address queries at our email id school@e-yantra.org.

For any clarification please contact the number below.
